

Sheeting Bridge

The Sheeting Bridge takes on the job of fastening with only two tools, but what smart tools they are. With operate panel and easy software "self teach mode" simplicity and functionality are combined to deliver maximum flexibility, maximum up-time and maximum results, all with the touch of a button. Movable wagon with tool is power by servomotor and position on the wall frame is very fast and exactly. Together Sheeting Table is ideal assembly for produce of wall panel.
